45. BAMBOO : SHOOT ::

- (1) Bean : Sprout (2) Oak : Tree
(3) Pepper : Corn (4) Holly : Sprig

Read the given passage and answer the question nos. 46 to 50

Dr. S. Radhakrishnan, the illustrious philosopher statesman of India, was one of the greatest sons of our motherland. He cautioned the world against the domination of science in society. It is erroneous to claim that scientific knowledge would bring with it perpetual progress and a steady improvement in human relations. The recent period of great scientific achievements has also increased human misery during two world wars, concentration camps, atomic destruction, cold war, deadly wars in the middle east, Persian Gulf and at many other places in the world. Growth in human wisdom has not been commensurate with the increase in scientific knowledge and power. The fear of universal destruction hangs over the world. There is a feeling of disenchantment, anxiety and even despair. Science has failed to liberate man from the tyranny of his own nature. Mankind is passing through a critical period and an education of the human spirit has become essential. In order to remake society, man has to remake himself. If humanity is to survive, man must integrate his knowledge with a social responsibility.

46. Dr. S. Radhakrishnan has

- (1) Emphasised that science should be banished from the society
(2) Opposed the teaching of science in educational institutions

- (3) Favoured scientific thinking in life
(4) Counseled that preponderance of science in life does not necessarily generate happiness

47. The recent past of tremendous scientific progress has

- (1) Made the world a very happy place
(2) Led to global warming
(3) Brought about internal transformation in men
(4) Shown that human wisdom has not kept pace with galloping scientific knowledge

48. Man is despaired of science because

- (1) Science has given too much knowledge
(2) Science has brought him excessive material comforts
(3) He has become a captive of science
(4) He is confronted with the nightmare of total annihilation of the world

49. Man can save humanity only if he

- (1) Abandons science
(2) Brings about an internal transformation in himself
(3) Makes his life more comfortable with scientific gadgets
(4) Goes back to nature and primitive times

50. In this passage, the writer has tried to show that

- (1) Science is the only savior that shall lead humanity forward
(2) Science can bring about an end to all the wars
(3) Social change comes with the advancement of science
(4) Human wisdom must grow proportionately with growth of knowledge to evolve a creative integration to help mankind
